

CALL FOR PAPERS

ISC is pleased to announce launching of its new scientific and technical journal entitled "ISeCure, The ISC International Journal of Information Security" (<http://isecure-journal.org>). ISeCure focuses on various aspects of information security research and development to report both in-depth research and application-oriented works.

The journal is currently planned to be published biannually, and its first issue is scheduled for publication in **January 2009**.

ISeCure accepts manuscripts in a variety of information security related topics, including but not limited to:

- Foundations of Cryptology
- Cryptographic Algorithms
- Security Protocols
- Identification and Authentication
- Access Control and Trust Management
- Operating System Security
- Database Security
- Auditing and Intrusion Detection
- Network Security
- E-Business Security
- Formal Methods in Information Security
- Privacy and Anonymity
- Availability
- Security in New Computational Environments (Grid, Pervasive, ...)
- Vulnerabilities (Modeling, Analysis, ...)
- Secure Software Engineering / Software Security
- Cryptographic Hardware and Embedded Systems
- Information Hiding (Steganography, Watermarking, ...)

Experienced researchers in any of the aforementioned topics are invited to submit their original papers to ISeCure.

The instruction for preparing and submitting papers is available at <http://isecure-journal.org/Authors.aspx>
